T H E
P R E F A C E.

THE Editor of the following Sheets, thinks he needs no Apology, and therefore will make none, for giving the Publick more accurate Directions for Travelling, than are to be met with in any other Book of the Kind.

JOHN OGILBY, and *WILLIAM MORGAN*, were appointed by King *Charles II.* and the Lords of the Council, to survey the Roads of *England*, which they did at the Expence of 7000 *l.* and accordingly printed the *Britannia* in 100 whole Sheet Maps; several Abstracts and Abridgments whereof have been published; but length of Time has produced great Alterations by turning the Roads, and the Traveller by following *Ogilby* has often been led into the Mire. Many Instances may be found, where new Roads are struck out, that were never known or frequented 'till lately; particulary one from

Meriden to Chester, page 83, which is now the usual Coach Road : from *Enston* through *Stratford upon Avon* to *Birmingham*, p. 74, *Peterborough to Lincoln*, p. 163, and many others, not in *Ogilby*, or any other Books of Roads yet published. Another Objection is, that all the Books of Roads hitherto published, differ in the Situation of Mile Stones, and instead of being a Guide to the Traveller, serve only to confound him. *Ogilby*, by taking his Measure from *Cornhill*, makes it 12 Miles and a Half to *Hounslow*, but the ten Mile Stone is really on the Heath a little beyond *Hounslow* ; and this Difference is made almost in every Road in *England*.

The Mile Stones are here printed as they are or ought to be placed on the Road. It were to be wished, that the Commissioners of all the Turnpikes, were obliged to continue their Measurement agreeable thereto in a regular Manner from *London*. Instead of which the Measurement from *Chester to Castle-Bromwich*, begins at *Chester*, and is continued to *Castle-Bromwich* ; the same from *Portsmouth to Petersfield* ; from *St John's-Bridge to Fifeild, Berkshire* ; from *Peterborough to Lincoln* ; and many others. This Regulation, it is hoped, will by and by take place, as well as the Amendment of the Roads, by the total Prohibition of narrow Wheels on Waggon and Carts drawn with more than two

Horses,

This is the gift of Thomas

The P R E F A C E.

Horses, 'till which Time good Roads cannot be expected at such a Distance from *London*, where the narrow Wheels overpower the broad ones, and spoil what they mend.

'Tis surprizing the Farmers should still continue so obstinate, and not open their Eyes to Conviction; but so it has been in other Nations besides England. It is well known, that the Farmers in *Ireland* used to draw their Ploughs tied to the Horses Tails, and would have continued the same foolish Custom to this Day, had they not been obliged by Act of Parliament to make use of Harnesses. Mr *Salmon* in *The Universal Traveller*, Vol. I. p. 573, says, that in *Poland*, their Ploughs are in Shape like ours, but in many Places are made all of Wood, having no Iron about them: and in the Province of *Samogitia*, when their Lords would have obliged them to fortify their Ploughs with Iron, they chose to lie still and not plough at all rather than depart from an old Custom.

It may not be at all amiss in a Book of this Kind, to take Notice of the vast Disproportion between loading heavy Luggage on the fore or hind Wheels of a Carriage, it being plain from Mathematical Experiments, that it will require five times the Force to draw a Carriage out of a Slough, the Weight being on the fore Wheels, as would draw the same, were the same Weight on the hind

Bell at Southwark, you know

hind Wheels. This the Carriers, Coachmen, &c. won't believe, and still continue laying as much of their heavy Luggage, as possibly they can in the Boot of the Coach, and on the fore Part of the Waggon; but as this does not affect the Roads, let them persist in their Folly.

The greatest Care has been taken to make this Book as compleat as possible, without a regular Survey, the Expence whereof, every one will readily suppose cannot be defrayed out of the Profits of a Book of so small a Price as this is. The Method therefore, which the Editor has taken, has been to procure all the Information he could from his Friends, and from several of the Post-Masters in the Country, who have favoured him with their Assistance. Notwithstanding which, some Mistakes and Inaccuracies will very probably happen. He would think himself greatly obliged to any Gentleman, who will favour him with any Additions or Alterations, which may be necessary by making of new Roads, for which many Acts are passed every Session of Parliament. I shall only add,

DIRECTIONS for finding the Road to any Place, to which the Traveller wants to go, *viz.* If to *Coventry*, look in the Alphabetical Index for *Coventry*, and opposite to it you are directed to p. 66. where will find the Road to *Coventry*: the rest of the Pages referred to, shew the

Cross-

vii

Cross-Roads from *Coventry to Cambridge, Gloucester, Hereford, Leicester, Worcester, Droitwich, Oxford, Banbury, Derby, &c.*

If you want to go to a Place not in a High Road, viz. to *Aldborough* in *Yorkshire*, the Alphabet shews, that it is one Mile East of *Boroughbridge*, the high Road to which from *London* you will find in p. 34.

But as it is impossible to lay down all the Cross-Roads, that every man may have Occasion to go, (as a thousand Men may each have a different Way to travel) therefore a Map is added, that if you do not find in the Book the Road you would go, by finding in the Map the Place you are at, and whither you would go, you will presently see what Road will bring you thither. For Example, would you go from *Ipswich* to *York*; you will find by the Map your Road is by *Bury, Ely, and Peterborough to Stamford*, when you are in the high *London Road to York*.

Directions

Directions for passing over at *Aust*, and the New Passage between *England* and *Wales*, Twenty Miles from *Bath*. See p. 125, 127.

ALL Southerly or Westerly Winds are called *Winds below*, and your passing over must be on the Ebb, or going out of the Tide; and you have seven Hours Passage.

All Northerly and Easterly Winds are called *Winds above*; then your Passage must be on the Flood, or coming in of the Tide, and then but five Hours Passage.

When the Wind and Tide go both one Way, there is no passing over.

It is computed, passing *Aust* and the New Passage varies half an Hour; so that when the Tide is coming in, and the *Wind above*, you may pass at the New Passage half an Hour sooner than at *Aust*; but the Tide going out, and the *Wind below* then at *Aust* half an Hour before the New.

Prices of Goods, Cattle, and Passengers going over at both Passages.

I. *Note*, That for every Letter or Parcel, from any of the above-mentioned Places to London, you are to pay one Penny each at the Receiving House; and nothing at London; But from London to the abovesaid Places, the Messengers are allowed to take for each Letter or Parcel, not exceeding a Pound, one Penny, and no more.

II. And considering divers of these Places are remote, It is desired you put in your Letters and Parcels before Six of the Clock over-Night at the Receiving Houses

Houses, from whence they will be Collected, and brought into their proper Offices; because divers of the Country Messengers go on their Walks by Six of the Clock next Morning, and thereby will gain a Day's time in the Delivery: But for those Places that are nearer, Letters are Collected and Delivered two or three times a Day.

III. And it is further Notified, that all General Post-Letters both Foreign and Domestick, are conveyed from the abovesaid Offices directed to the Towns abovementioned, every Day at twelve a Clock: And Answers thereunto being put into the Receiving Houses in the Country Towns, will next Night be safely put into the General Post-Office.
